Steel Modular

**Railing System &
Aluminium Series**

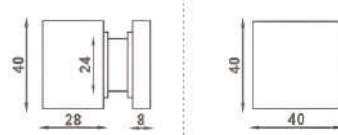

COLORS

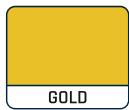

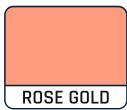

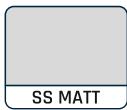

EX-PF-01 (38MM) & (50MM)

Extrutech Point Fitting Glass Railing System Can Be Used in Both The Exterior And Interior. Most Commonly This System is Excellent For Interior Applicant For Staircase & Cutouts, Where The Enre Perimexer Is Exposed To The More Modern Look.

Point Fitting Are Installed in Solid Surfaces Such as Steel, Wood Or Concrete, in The Face of Staircase or Balconies. The Glass is Suspended Verbally By Point Fitting, And Each Piece is Independent of The Other Piece For Support, Unless A Handrail is Installed For Additional Strength.

COLORS

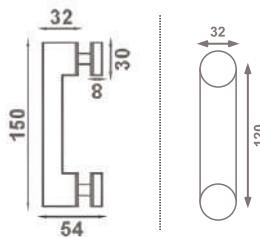

EX-PF-02 (40X40MM)

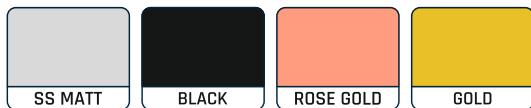

Extrutech Point Fitting Glass Railing System Can Be Used in Both The Exterior And Interior. Most Commonly This System is Excellent For Interior Applicant For Staircase & Cutouts, Where The Enre Perimexer Is Exposed To The More Modern Look.

Point Fitting Are Installed in Solid Surfaces Such as Steel, Wood Or Concrete, in The Face of Staircase or Balconies. The Glass is Suspended Verbally By Point Fitting, And Each Piece is Independent of The Other Piece For Support, Unless A Handrail is Installed For Additional Strength.

EX-HB-01

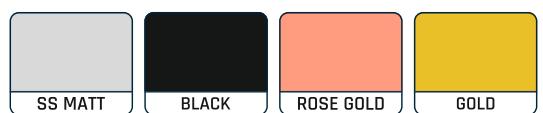

Extrutech Half Balustrade Can Be Used in Both Exterior & Interior Application, Where The Glass Must Have A Space Between The Floor And Lower Edge of Glass. This Railing System Has Two Balustrades To Hold Each Glass Panel.

The Glass is Hold up off of The Ground By Rootles Connected To The Post. Each Balustrade Must Have A Solid Surface To Drill Down Each Post's Base Into The Floor In Order To Support The Railing.

A Frameless Glass Railing Will Provide A Polished Sleek Feeling That Will Make The Surface Feel Much Bigger And Stylish.
